

Nikko AM NZ Investment Scheme

NIKKO AM GLOBAL EQUITY HEDGED FUND

Fund Update

What is the purpose of this update?

Please note that previous fund updates for the quarters ending 30 September 2016, 31 December 2016 and 31 March 2017 were reissued on 22 May 2017. We identified that in those fund updates, the calculation of the annual return (after deductions for charges and tax) was incorrect. This was corrected and resulted in changes to the following sections: "How has this fund performed?" and "Example of how this applies to an investor" of those fund updates.

This document tells you how the Nikko AM Global Equity Hedged Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Nikko AM NZ prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Fund aims to outperform the MSCI All Countries World Index (net dividends reinvested), gross hedged 139% to the New Zealand Dollar by 3.0% p.a. over a rolling three year period before fees, expenses and taxes. The Fund provides investors with long term growth from an actively managed investment portfolio selected from global equity markets with currency exposure created as a consequence of global equity investment gross hedged 139% to the New Zealand Dollar.

Total value of the fund	\$88,854,987
The date the fund started	14 January 2013

What are the risks of investing?

Risk indicator for Nikko AM Global Equity Hedged Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to June 2017¹. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates. See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return <i>(after deductions for charges and tax)</i>	17.26%
Annual return <i>(after deductions for charges but before tax)</i>	20.05%
Market index annual return <i>(reflects no deduction for charges and tax)</i>	22.77%

The market index on which the annual return is based is the MSCI All Countries World Index (net dividends reinvested), gross hedged 139% to New Zealand Dollar.

Additional information about the market index is available on the offer register.

Annual return graph²

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to June 2017.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Nikko AM Global Equity Hedged Fund are charged fund charges. In the year to 31 March 2017, these were:

	% of net asset value
Total fund charges	1.38%
Which are made up of:	
Total management and administration charges	1.38%
Including:	
Manager's basic fee	1.27%
Other management and administration charges	0.11%
Total performance-based fees	0.00%

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the Nikko AM Global Equity Hedged Fund PDS for more information about those fees.

Example of how this applies to an investor

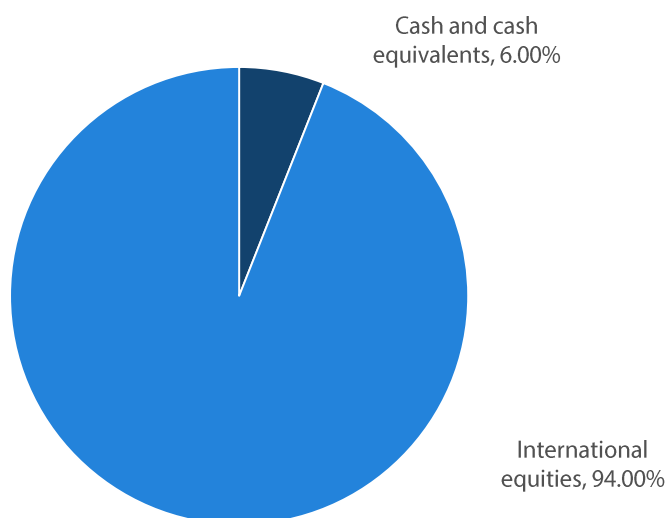

Small differences in fees and charges can have a big impact on your investment over the long term. For the purpose of this example, the start of the year is 1 April 2016.

Hayley had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Hayley received a return after fund charges were deducted of \$1,451 (that is 14.51% of her initial \$10,000). Hayley paid no other charges. This gives Hayley a total return after tax of \$1,207 for the year.

Further information

You can also obtain this information, the PDS for the Nikko AM Global Equity Hedged Fund, and some additional information from the offer register at <https://www.companiesoffice.govt.nz/disclose>.

Notes

¹ Because the fund is less than five years old, the risk indicator uses returns data partly from returns of the fund, and partly (for the period 1 July 2012 to 14 January 2013) from the MSCI All Countries World Index (net dividends reinvested), gross hedged 139% to the New Zealand Dollar.

² The bar chart shows fund returns after the deduction of fees and taxes, however, the market index returns are shown before any fees or taxes are deducted.

³ All investments described in this fund update are in New Zealand dollars.
