## Market Commentary

Global equity markets were strong over the month with the exception of China where more regulations were announced - in particular focused on the tech sector. Despite the spread of the Delta variant of COVID-19 around the world the vaccine rollout has enabled more freedom in many countries. With inflation moving higher and unemployment low the Reserve Bank of New Zealand was set to raise the Official Cash Rate before a surprise COVID-19 outbreak in New Zealand put that on hold. Earnings results in New Zealand for the period ending June were good but with the COVID-19 outbreak the near-term outlook is uncertain.

## Fund Commentary

The fund ended the month up strongly returning 5.1%. The largest positive contributors to return were positions **Summerset (SUM)**, **EBOS Group (EBO)** and **Z Energy (ZEL)**. SUM rose 17.1% after reporting a very strong half year result and a better-than-expected build rate for the year while EBO rose strongly (+15.9%) on an excellent full year financial result. ZEL rose 19.0% after announcing that it had received a conditional takeover bid from Ampol.

Other fund companies **Ingenia Communities**, **Aristocrat Leisure** and **Fisher & Paykel Healthcare**, all contributed positively to performance. EROAD fell over the month following a strong performance in the previous month.

There were no material changes to portfolio positions during the month.
