

Nikko AM NZ Investment Scheme

# NIKKO AM GLOBAL BOND FUND

## Fund Update

### What is the purpose of this update?

This document tells you how the Nikko AM Global Bond Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Nikko AM NZ prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### Description of this fund

The Fund aims to outperform the Bloomberg Barclays Global Aggregate Index, hedged 100% to the New Zealand Dollar by 1.00% p.a. over a rolling three year period before fees, expenses and taxes. The Fund provides investors with regular income by constructing an actively managed investment portfolio of permitted investments with the potential for capital gain from global fixed income assets.

Total value of the fund	\$21,197,060
The date the fund started	13 December 2013

### What are the risks of investing?

#### Risk indicator for Nikko AM Global Bond Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-kickstarter](http://www.sorted.org.nz/tools/investor-kickstarter).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to March 2017.<sup>1</sup> While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

## How has the fund performed?

	Past year
Annual return <i>(after deductions for charges and tax)</i>	1.92%
Annual return <i>(after deductions for charges but before tax)</i>	2.67%
Market index annual return <i>(reflects no deduction for charges and tax)</i>	2.63%

The market index on which the annual return is based is the Bloomberg Barclays Global Aggregate Index, hedged to New Zealand Dollars.

Additional information about the market index is available on the offer register.

## Annual return graph<sup>2</sup>

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to March 2017.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in the Nikko AM Global Bond Fund are charged fund charges. In the year to 31 March 2017, these were:

	% of net asset value
<b>Total fund charges</b>	<b>0.88%</b>
Which are made up of:	
<b>Total management and administration charges</b>	<b>0.88%</b>
Including:	
Manager's basic fee	0.66%
Other management and administration charges	0.22%
<b>Total performance-based fees</b>	<b>0.00%</b>

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the Nikko AM Global Bond Fund PDS for more information about those fees.

## Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term. For the purpose of this example, the start of the year is 1 April 2016.

Hayley had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Hayley received a return after fund charges were deducted of \$267 (that is 2.67% of her initial \$10,000). Hayley paid no other charges. This gives Hayley a total return after tax of \$192 for the year.

## What does the fund invest in?

This shows the types of assets that the fund invests in.

### Actual investment mix

### Target investment mix

International fixed interest and Cash and cash equivalents <sup>3</sup>	100%
---	------

## Top 10 investments

	Name	Percentage of fund's net asset value	Type	Country	Credit rating (if debt securities)
1	Government National Mortgage Association 150441 0.0 TBA	6.03%	International fixed interest	United States	AA+
2	Spain Kingdom Of Government 311017 0.50	4.01%	Cash and cash equivalents	Spain	BBB+
3	Japan Government 080517 0.00	3.80%	Cash and cash equivalents	Japan	A+
4	France Government 250717 1.00	2.93%	Cash and cash equivalents	France	AA
5	Japan Government 20yr Issue 200624 2.20	2.66%	International fixed interest	Japan	A+
6	Japan Government Of 200934 1.40	2.38%	International fixed interest	Japan	A+
7	Japan Government Of 200920 0.80	2.14%	International fixed interest	Japan	A+
8	Italy Republic Of Government 010617 4.75	2.08%	Cash and cash equivalents	Italy	BBB-
9	Japan Government Of 200318 0.30	1.96%	Cash and cash equivalents	Japan	A+
10	Japan Government Of 100326 0.10 IILB	1.88%	International fixed interest	Japan	A+

The total value of the top 10 investments make up 29.87% of the net asset value of the fund.

Currency hedging is material to the fund. Investments in local currencies are first hedged to USD; then the aggregate value of the entire portfolio in USD is passively hedged to NZD.

## Further information

You can also obtain this information, the PDS for the Nikko AM Global Bond Fund, and some additional information from the offer register at <https://www.companiesoffice.govt.nz/disclose>.

## Notes

<sup>1</sup> Because the fund is less than five years old, the risk indicator uses returns data partly from returns of the fund, and partly (for the period December 2011 to 13 December 2013) from the Barclays Capital Global Aggregate Index, hedged to New Zealand Dollars.

<sup>2</sup> The bar chart shows fund returns after the deduction of fees and taxes, however, the market index returns are shown before any fees or taxes are deducted.
