

Nikko AM NZ Investment Scheme

NIKKO AM GLOBAL SHARES FUND

Fund Update

What is the purpose of this update?

This document tells you how the Nikko AM Global Shares Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Nikko AM NZ prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Fund aims to outperform the MSCI All Countries World Index, with net dividends reinvested, expressed in NZD (unhedged) by 3.0% p.a. over a rolling three year period before fees, expenses and taxes. The Fund seeks to provide investors with a relatively concentrated actively managed investment portfolio of global equities to achieve long term capital growth.

Total value of the fund	\$346,192
The date the fund started	22 August 2017

What are the risks of investing?

Risk indicator for Nikko AM Global Shares Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to September 2018¹. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates. See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return <i>(after deductions for charges and tax)</i>	23.75%
Annual return <i>(after deductions for charges but before tax)</i>	24.66%
Market index annual return <i>(reflects no deduction for charges and tax)</i>	19.70%

The market index on which the annual return is based is the MSCI All Countries World Index (net dividends reinvested), expressed in NZD (unhedged).

Additional information about the market index is available on the offer register at www.companiesoffice.govt.nz/disclose.

What fees are investors charged?

Investors in the Nikko AM Global Shares Fund are charged fund charges. Based on the PDS, dated 3 April 2018, these were expected to be (inclusive of GST where applicable):

	% of net asset value
Total fund charges	1.22%
Which are made up of:	
Total management and administration charges	1.22%
Including:	
Manager's basic fee	0.96%
Other management and administration charges (estimated)	0.26%
Total performance-based fees	0.00%

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the Nikko AM Global Equity Funds PDS for more information about those fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term. For the purpose of this example, performance has been calculated from 22 August 2017 when the first investment was made into the fund.

Hayley made the first investment of \$10,000 into the fund and did not make any further contributions. As at 30 September 2018, Hayley received a return for the last 12 months ended 30 September 2018, after fund charges were deducted of \$2,466 (that is 24.66% of her initial \$10,000). Hayley paid no other charges. This gives Hayley a total return after tax of \$2,375 for the period ending 30 September 2018.

What does the fund invest in?

Further information

You can also obtain this information, the PDS for the Nikko AM Global Equity Funds, and some additional information from the offer register at <https://www.companiesoffice.govt.nz/disclose>.

Notes

¹ Because the fund is less than five years old, the risk indicator uses returns data partly from returns of the fund, and partly (for the period October 2013 to August 2017) from the MSCI World Index (net dividends reinvested), expressed New Zealand Dollars (unhedged). As a result of this, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.

² All investments in this fund updates are described in New Zealand dollars.
