The date the fund started	12 June 2014

What are the risks of investing?

Risk indicator for Nikko AM NZ Cash Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to December 2018¹. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return <i>(after deductions for charges and tax)</i>	1.76%
Annual return <i>(after deductions for charges but before tax)</i>	2.42%
Market index annual return <i>(reflects no deduction for charges and tax)</i>	1.95%

The market index on which the annual return is based is the Bloomberg NZBond Bank Bill Index.

Additional information about the market index is available on the offer register at www.companiesoffice.govt.nz/disclose.

Annual return graph²

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to December 2018.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Nikko AM NZ Cash Fund are charged fund charges. In the year to 31 March 2018, these were (inclusive of GST where applicable):

	% of net asset value
Total fund charges	0.35%
Which are made up of:	
Total management and administration charges	0.35%
Including:	
Manager’s basic fee	0.25%
Other management and administration charges	0.10%
Total performance-based fees	0.00%

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the Nikko AM NZ Cash and Fixed Interest Funds PDS for more information about those fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term. For the purpose of this example, the start of the year is 1 April 2017.

Hayley had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Hayley received a return after fund charges were deducted of \$262 (that is 2.62% of her initial \$10,000). Hayley paid no other charges. This gives Hayley a total return after tax of \$188 for the year.

Notes

¹ Because the fund is less than five years old, the risk indicator uses returns data partly from returns of the fund, and partly (from January 2014 to June 2014) from Bloomberg NZ Bond Bank Bill Index. As a result of this, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.

² The bar chart shows fund returns after the deduction of fees and taxes, however, the market index returns are shown before any fees or taxes are deducted.

³ All investments in this fund update are described in New Zealand dollars.
