## What are the risks of investing?

### Risk indicator for Nikko AM Global Shares Hedged Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-kickstarter](http://www.sorted.org.nz/tools/investor-kickstarter).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to June 2019<sup>1</sup>. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates. See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

## How has the fund performed?

## What fees are investors charged?

Investors in the Nikko AM Global Shares Fund are charged fund charges. Based on the PDS, dated 10 May 2019, these were expected to be (inclusive of GST where applicable):

	% of net asset value
<b>Total fund charges</b>	<b>1.22%</b>
Which are made up of:	
<b>Total management and administration charges</b>	<b>1.22%</b>
Including:	
Manager's basic fee	0.96%
Other management and administration charges (estimated)	0.26%
<b>Total performance-based fees</b>	<b>0.00%</b>

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the Nikko AM Global Equity Funds PDS for more information about those fees.

## Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term. For the purpose of this example, performance has been calculated from 24 May 2019 when the first investment was made into the fund.

Sam made the first investment of \$10,000 into the fund and did not make any further contributions. As at 30 June 2019, Sam received a return after fund charges were deducted of \$593 (that is 5.93% of his initial \$10,000). Sam paid no other charges. This gives Sam a total return after tax of \$502 for the period ending 30 June 2019.

## Notes

<sup>1</sup> Because the fund is less than five years old, the risk indicator uses returns data from for the period July 2014 to May 2019 from the MSCI World Index (net dividends reinvested), As a result of this, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.

<sup>2</sup> All investments described in this fund updates are in New Zealand dollars.
