

Nikko AM NZ Investment Scheme

NIKKO AM NZ CORPORATE BOND FUND

Fund Update

What is the purpose of this update?

Please note that previous fund update for the quarter ending 31 March 2019 was reissued on 15 May 2019. We identified that in that fund update, the market index return, average over the past 5 years and the average annual were incorrect. This was corrected and resulted in changes to the following sections: "How has this fund performed?" and "Annual return graph".

This document tells you how the Nikko AM NZ Corporate Bond Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Nikko AM NZ prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Fund aims to outperform the Bloomberg NZBond Credit 0+ Year Index by 0.70% p.a. over a rolling three year period before fees, expenses and taxes. The fund aims to provide investors with regular income by constructing an actively managed investment portfolio of New Zealand bonds, deposits and cash whilst preserving the capital value.

Total value of the fund	\$145,730,058
The date the fund started	13 July 2009

What are the risks of investing?

Risk indicator for Nikko AM NZ Corporate Bond Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating. This risk indicator is not a guarantee of a fund's future performance.

The risk indicator is based on the returns data for the five year period to June 2019. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years	Past year
Annual return <i>(after deductions for charges and tax)</i>	4.21%	5.08%
Annual return <i>(after deductions for charges but before tax)</i>	5.90%	7.13%
Market index annual return <i>(reflects no deduction for charges and tax)</i>	5.78%	6.51%

The market index on which the annual return is based is the Bloomberg NZBond Credit 0+ Year Index.

Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz/>.

Annual return graph¹

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to June 2019.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Nikko AM NZ Corporate Bond Fund are charged fund charges. In the year to 31 March 2019, these were (inclusive of GST where applicable):

	% of net asset value
Total fund charges	0.80%
Which are made up of:	
Total management and administration charges	0.80%
Including:	
Manager's basic fee	0.71%
Other management and administration charges	0.09%
Total performance-based fees	0.00%

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the Nikko AM Cash and Fixed Interest Funds PDS for more information about those fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term. For the purpose of this example, the start of the year is 1 April 2018.

Simon had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Simon received a return after fund charges were deducted of \$612 (that is 6.12% of his initial \$10,000). Simon paid no other charges. This gives Simon a total return after tax of \$436 for the year.
