The date the fund started	3 April 2018

What are the risks of investing?

Risk indicator for the Core Equity Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to September 2021¹. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates. See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

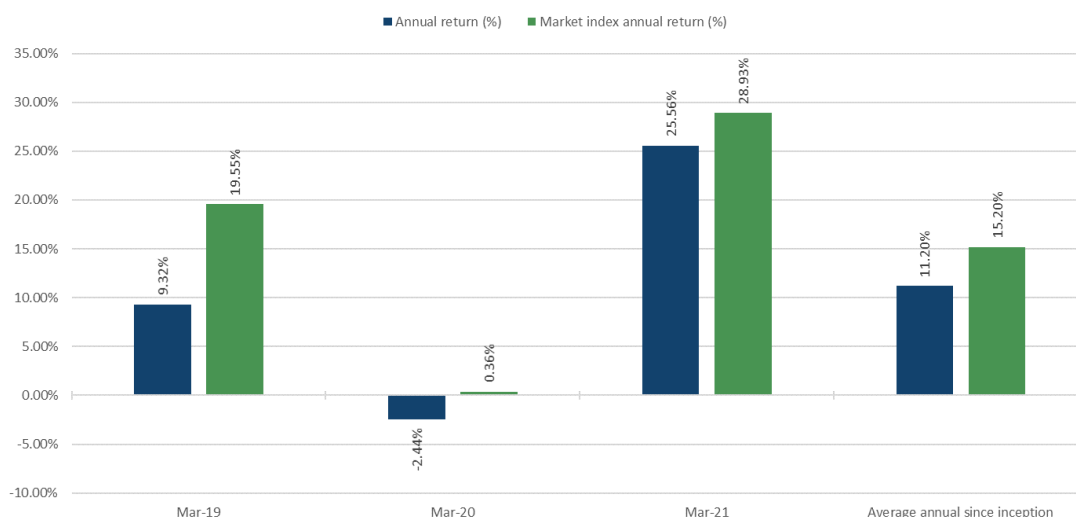

How has the fund performed?

	Past year
Annual return <i>(after deductions for charges and tax)</i>	13.98%
Annual return <i>(after deductions for charges but before tax)</i>	14.59%
Market index annual return <i>(reflects no deduction for charges and tax)</i>	13.72%

The market index on which the annual return is based is the S&P/NZX 50 Index Gross with Imputation credits. The fund returns include imputation credits.

Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz/>.

Annual return graph^{2,3}

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 September 2021.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Core Equity Fund are charged fund charges. In the year to 31 March 2021, these were (inclusive of GST where applicable):

	% of net asset value
Total fund charges	0.95%
Which are made up of:	
Total management and administration charges	0.95%
Including:	
Manager's basic fee	0.95%
Other management and administration charges	0.00%
Total performance-based fees	0.00%
<hr/>	
Other charges	\$ amount per investor
Annual membership fee	\$30 per annum

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the Nikko AM KiwiSaver Scheme PDS for more information about those fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Simon had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Simon received a return after fund charges were deducted of \$1,459 (that is 14.59% of his initial \$10,000). Simon also paid \$30 in other charges. This gives Simon a total return after tax of \$1,368 for the year.⁴

Notes

¹ Because the fund is less than five years old, the risk indicator uses returns data partly from returns of the fund, and partly (for the period October 2016 to March 2018) from the S&P/NZX 50 Index Gross with Imputation credits. As a result of this, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.

² Performance has been calculated from 23 April 2018, when the first investment was made in the fund.

³ The bar chart shows fund returns after the deduction of fees and taxes, however, the market index returns are shown before any fees or taxes are deducted.

⁴ For the purpose of this example, the start of the year is 1 October 2020.

⁵ All investments in this fund update are described in New Zealand dollars.
