GoalsGetter Harbour Active Growth Fund

Fund Update

What is the purpose of this update?

This document tells you how the GoalsGetter Harbour Active Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Nikko AM NZ prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Fund is designed to provide investors with exposure to a wide range of domestic and global assets. The Fund invests approximately two thirds in growth assets such as shares, property and infrastructure and approximately a third into more defensive assets which will predominantly be made of investment grade bonds. The Manager will use active management to enhance returns and manage downside risks.

Total value of the fund	\$683,513
Number of investors in the fund	32
The date the fund started	9 May 2024

What are the risks of investing?

Risk indicator for the GoalsGetter Harbour Active Growth Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund’s assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://sorted.org.nz/tools/investor-profiler/>.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund’s future performance. The risk indicator is based on the returns data for the five-year period to June 2025¹. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates. See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	5.41%
Annual return (after deductions for charges but before tax)	6.43%
Market index annual return (reflects no deduction for charges and tax)	10.89%

Nikko AM is relying on the Financial Markets Conduct (Market Index) Exemption Notice 2024 and have created a composite index in order to calculate the market index annual return. The Manager believes the use of a composite benchmark for these funds would be useful to investors in assessing the performance of the fund as a whole. The composite market index for each fund is made up of the index of the underlying sector funds (where an Appropriate Market Index or Peer Group Index is available) multiplied by the respective target investment mix. Some of the underlying sector fund index returns include imputation credits. The fund returns include imputation credits.

Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz/>.

What fees are investors charged?

Investors in the GoalsGetter Harbour Active Growth Fund are charged fund charges. As at 31 March 2025, these were (inclusive of GST where applicable):

	% of net asset value
Total fund charges	1.23%
Which are made up of:	
Total management and administration charges	1.23%
Including:	
Manager's basic fee	1.03%
Other management and administration charges	0.20%
Total performance-based fees	0.00%
Other charges	\$ amount per investor
Annual membership fee	\$30 per annum

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the GoalsGetter KiwiSaver Scheme - Harbour Asset Management, Salt Investment Funds and Pathfinder Funds Management Funds PDS for more information about those fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Sam had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Sam received a return after fund charges were deducted of \$643 (that is 6.43% of his initial \$10,000). Sam also paid \$30 in other charges. This gives Sam a total return after tax of \$511 for the year.²

What does the fund invest in?³

This shows the types of assets that the fund invests in.

Actual investment mix

Target investment mix⁴

* "Other" – private credit/equity investments or other unitized investments

Further information

You can also obtain this information, the PDS¹ for the GoalsGetter KiwiSaver Scheme, and some additional information from the offer register at <https://disclose-register.companiesoffice.govt.nz/>.

Notes

¹ Because the fund is less than five years old, the risk indicator uses data for the period July 2020 - May 2024 from the composite index. As a result of this, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.

² For the purpose of this example, the start of the year is 1 July 2024.

³ Actual and target investment mix are for the underlying fund our fund invests in.

⁴ All investments in this fund update are described in New Zealand dollars.
